Continuation of Substance of Interview including description of the general nature of what was discussed: A sequence search was conducted following Applicant's submission of after-final amendments that brought to light potentially new art regarding claim 104, subpart C, related to a fragment. The examiner called Applicant's representative to discuss possible claim amendments or the continuation of prosecution. Applicant's representative stated that he was in the process of traveling outside of the country, but would discuss the issue with Applicant and would contact the examiner upon his return in two weeks. The examiner agreed to further discuss the situation upon the return of Applicant's representative. The search results appear in SCORE.
